PROFILE

I am a video editor and graphics specialist who can also support you and your video operations as needed. I do various types of video editing, video compressions, DVD authoring, and all types of technical assistance support. A key value is my through understanding of both pre- and post-production media production operations. I continually update my skills and experience with the latest technology advances in video, audio, computers, software applications, and other creative tools.

VIDEO, TECHNICAL, AND CREATIVE EXPERIENCE

Camp Creative, Editor / Assistant Editor / PA / Tech Support, Sausalito, CA — 2006-2007

Edited one hour podcasts with Final Cut Pro, DVD authoring, compression of video/audio media using multiple compression apps, logging and capturing multiple media formats utilizing a patch bay, creating motion graphics with After Effects and repairing audio for podcasts with Soundtrack Pro. In addition, provided technical/ IT assistance for four Final Cut Pro workstations, two Xserve Raids, six Macs in the production office and configured a compression and render farm. campcreative.net

Crackle (formerly Grouper.com), Editor / Assistant Editor / Tech Support, Sausalito, CA — 2007

Edited two to three minute shorts of SXSW concerts for exclusive upload to crackle.com (formerly Grouper.com), followed by the documentary *Firehouse* as an assistant editor working side by side with Bob Sarles of Ravin Films. Also installed hardware and configured the video/audio software for two Final Cut Pro workstations.

Media One, Video Consulting, San Francisco, CA — 2007-Present

Wells Fargo financial discussion group - live feed video consultant. Tri-monthly assignment throughout 2008 - Ensured proper video equipment set-up for live digital podcast feed.

Cib In Motion, Motion Graphics/Video Editing, San Francisco, CA — 2007-Present

Edited multiple different projects, created bumpers and other motion graphics for projects I worked on as well.

Vic Ferrer Productions, Tech support / Networking, San Francisco, CA — 2007-Present

Installed & configured all of Vics studio TC/ IP networking, including wiring over 16 ports over a gigabit network using 2 switches, 2 routers and configuring VoIP for fax and multiple phones. Also served as network equipment purchasing consultant. vicferrerproductions.com

Muse Media Center, DVD - CD-Rom Author / Motion Graphics, Emeryville, CA — 2007 -Present

Authored all the DVD's for Louise Hay's "How You Can Heal Your Life" DVD Movie and Interviews. As well as an interactive CD-Rom for Microsoft. Created Motion Graphics for a YouTube/Hewlett Packard campaign. I also updated the code for the main website, graphics and content for Muse's site. musemediacenter.com

Not So Common Sense Productions, Editing / Motion Graphics, San Francisco, CA — 2007-2008

Edited webcasts for Wells Fargo webcast Series episode 3 and Commercial Direct Episode 1. As well as creating lower thirds and bumpers.

Tim Fink Events & Media, Assistant Editor / Motion Graphics, San Rafael, CA — 2007 -Present

Worked as an assistant editor for Dave Macky on a Cisco music video project. Responsible for digitizing, organizing media, created lower thirds in Motion 3, compressed video's to FTP for client approval and laid final product off to Beta SP.

Ellusionist, Editor / Assistant Editor / Tech support, Sausalito, CA — 2007-Present

Edited three short five minute magic trick presentations that were followed with four to ten minute magic trick reveals for an upcoming DVD project. Assisted with organizing media and Mac tech support for the several macs used for the project.

AVmedia, Editor / Assistant Editor, Fort Lauderdale, FL — 2008-Present

Edited promo's for New Balance including translation services as well as, Assistant Editor tasks for other projects.

SJB Productions, Compression Services, Berkley, CA — 2008-Present

Provided flash compression services for promo edits.

Total Media Group, Editor / Assistant Editor, South San Francisco, CA — 2009-Present

Created a unique slide show for a local companies sales team. Edited footage of interviews for the same local company that was output to DVD.
